Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group) *

Universidade de Lisboa (ULisboa) is the largest and most prestigious university in Portugal and it is one of Europe's leading universities. Notwithstanding assessment methods or criteria, ULisboa also leads the main international rankings and is amongst the 200 best universities worldwide. Heir to an academic tradition that spans over seven centuries, ULisboa acquired its current status in July 2013, following the merger of the former Universidade Técnica de Lisboa and Universidade de Lisboa. Located in the heart of the city of Lisbon, it provides its entire community with the best and most diverse academic programs, vowing to deliver a uniquely enriching experience. ULisboa welcomes more than 7000 foreign students every year – about 14,5% of the total number of students – from over 100 countries, seeking high quality education. Bringing together various academic fields, ULisboa has a privileged position for enabling the contemporary evolution of science, technology, arts and humanities

Instituto Superior Técnico (IST) is the largest and most reputed school of engineering, science and technology in Portugal. Since its creation in 1911, IST aims to contribute to the development of society promoting and sharing excellence in higher education in the fields of Architecture, Engineering, Science and Technology. IST offers Bachelor, Master and PhD programmes, lifelong training and develops Research, Development and Innovation activities, which are essential to provide an education based on the top international standards. Its mission is therefore expressed in the three functions which characterise the concept of a modern university: to generate knowledge, to provide skilled professionals and to transfer and apply knowledge and innovation by creating cutting-edge science and technology. IST consists of 3 campuses, 3 student residences and 10 Departments. There are more than 11.500 full-year equivalent under and post graduate students, and about 1.500 full time equivalent teaching and non-teaching staff. Research at IST is organised in 23 R&D Units and 8 Associate Laboratories that address a multidisciplinary research in an international and multicultural atmosphere.

IST participates in a large number of EC-funded projects, particularly in the programs: FP7 (approximately 100, of which 17 is coordinator), H2020, including European Research Council and Marie Curie Actions, ENERGY, ERA (European Research Area), EURATOM, LEONARDO DA VINCI, ERASMUS+, TEMPUS, INTERREG/CTE, LIFE, COST Actions, External Cooperation programmes / ALFA, among others.

On another note, IST is an important player in the international scenario and is particularly concerned with issues of gender, equal opportunities, inclusion and employability in engineering and science programmes. With its quality staff teams with managerial and leadership skills, along with its accomplished academic and research staff, it has contributed to improve and change mindsets through strategic joint initiatives that aim to educate, shape and have a significant global impact for future generations.

ERASMUS+ PROGRAMME

CAPACITY BUILDING FOR HIGHER EDUCATION

What is CBHE ?

CBHE supports the modernisation and development of HEIs and educational systems in the Third Countries not associated to the E+ programme.

ERASMUS+ PROGRAMME

CURRENT CONTEXT

- ✓ Supports the relevance, quality, modernisation and responsiveness of Higher Education Institutions for socioeconomic recovery, growth and prosperity.
- ✓ Reacts to recent trends, in particular economic globalisation, but also the recent decline in human development, fragility, and rising social, economic and environmental inequalities exacerbated by the COVID-19 crisis.
- ✓ Aligned with the '[Sustainable Development Goals](#)' (SDGs) and the Paris Agreement.
- ✓ Global interventions that take into account governance, management and the strengthening of higher education's wider economic and social ecosystems.
- ✓ Addresses regional issues, build alliances and coalitions, pilot new approaches and initiatives built on country ownership.
- ✓ Ensures equity, accessibility and inclusion, system strengthening and capacity building, as well as employability transversally across the action.

ERASMUS+ PROGRAMME

CAPACITY BUILDING FOR HIGHER EDUCATION

WHAT ARE THE NEW FEATURES?

Strand 1 . Fostering access to cooperation in Higher Education

Facilitate access to newcomers*
First step for participating organisations to enhance and increase means to reach out to people with fewer opportunities.
Duration: 24-36 months
Funding: 200.000 and 400.000 Euro

Strand 2 - Partnerships for Transformation

Access to HEIs with CBHE experience
For innovate and modernize HEIs from partner countries

- Addressing regional issues, building alliances and coalitions, piloting new approaches and initiatives built on country ownership will be strongly encouraged.
- Supporting the implementation of the Green Deal, increasing the capacity of ICT in the third countries not associated to the programme and student participation in planning and learning processes will be cross-cutting elements of the action.
- Coherence, synergies and complementarity with other relevant European Union interventions in the field will be ensured.

Applications for funding/applications for accreditation: partner management and access to application forms

IMPORTANT POINTS TO NOTE BEFORE YOU START

Mandatory steps to be followed by ALL applicants (for funding and for accreditation)

EU LOGIN (PREVIOUSLY KNOWN AS ECAS) authentication

Access to all of the application options below is validated by EU LOGIN (PREVIOUSLY KNOWN AS ECAS), the European Commission's Authentication Service. Applicants must therefore have an EU LOGIN (PREVIOUSLY KNOWN AS ECAS) account. If you do not yet have an ECAS account, click [here](#) to be directed to the EU LOGIN (PREVIOUSLY KNOWN AS ECAS) website where you can create one.

Organisation registration (PIC numbers)

All organisations that seek to be included as a participant in a funding application or wish to apply for an accreditation, must first have registered in EACEA's Participant Portal. The registration system assigns a unique Participant Identification Code (PIC) to each organisation. If an organisation does not have a PIC number, it cannot apply for funding or apply for an accreditation. Click [here](#) to be directed to EACEA's Participant Portal. Access to the portal is validated by EU LOGIN (PREVIOUSLY KNOWN AS ECAS) (see above).

Points to be noted and respected by applicants for funding ONLY

Organisation profile

Some actions require a minimum number of participating organisations in order for the application to be considered eligible. Likewise, some actions require there to be representation from specific countries for the application to be considered eligible. Please carefully check whether any such rules apply to the funding opportunity you are applying under. If such rules do apply, you must respect those rules when building your list of participating organisations. If you have not respected the rules, you will receive an error message when the application eForm is created and you will have to start the entire process again.

One uninterrupted session

When you proceed with either of the funding application options below, you will be guided through a series of steps resulting in the creation of a new or updated application eForm. These steps are fully described in the User Guide. Please note that these steps must be completed in one continuous session. It is not possible to interrupt the activity and resume it at a later time. If you close the browser window in which you are working or if you close the browser entirely, you will lose the data you have entered and will have to start again. Please therefore ensure you have all necessary PIC numbers AND have checked the rules for the organisation profile BEFORE YOU PROCEED.

ERASMUS+ PROGRAMME

CAPACITY BUILDING FOR HIGHER EDUCATION

HOW TO APPLY?

Applications are processed by the Education, Audiovisual and Culture Executive Agency (EACEA) of the European Commission. The organisation coordinating the Capacity Building project submits the application to EACEA which evaluates and selects the projects.

Organisations wishing to apply for the EACEA action are required to submit their application online to the EACEA using the correct electronic form and including all requested annexes. Applications sent by post, courier service, fax or email will not be accepted.

Application package

The application form is structured in 3 parts:

- ☐ Part A - Administrative Forms Contains general information about the project, data on the applicant organisation and contact persons
- ☐ Part B* – Technical description & annexes Contains the narrative part of the project, the work packages, milestones & deliverables. Detailed budget table is an annex of Part B
- ☐ Part C – Administrative forms Tick boxes related to the proposal's general objective(s) and indicators specific to the CBHE action (N° of impacted students, N° of new study programmes, N° of involved/trained staff, etc.)

**Prepare Part B in advance and upload it together with the mandatory annexes*

ERASMUS+ PROGRAMME

CAPACITY BUILDING FOR HIGHER EDUCATION

IMPORTANTE:

- ✓ Relevance of the strategy
- ✓ Quality of the cooperation arrangements
- ✓ Quality of project design and implementation
- ✓ Impact and dissemination

Tips for the application

- There needs to be a justified need for a Capacity Building project in the Partner Country.
- Get to know the Capacity Building projects country- and region-specific priorities for each project type.
- You can also get to know the ongoing and already [finished](#) Capacity Building projects 2014-2020.

Watch video about Erasmus+ Capacity Building projects

An essential ingredient in capacity others is transformation that is generated and sustained internally over time; transformation of this kind goes beyond performing tasks to changing mindsets and attitudes.

The background of the slide is a complex, abstract network diagram. It consists of numerous nodes of varying sizes, some solid black, some solid blue, and some white with black outlines. These nodes are interconnected by a web of thin, light gray lines. The overall effect is a sense of global connectivity and digital infrastructure. The text 'THANK YOU.' is positioned in the lower right quadrant of the slide.

THANK YOU.
